TRANSLATOR NOTES

NOTE

In the previous chapters I translated "Gijinka"
(sorry this computer won't type Japanese) as "personification"
After bumming around some more, and inspired by having to research "moe",
I've changed the translation to "anthropomorphism" from here on out
Sorry for any inconvenience. I probably won't
change the first two chapters. I'm just a lazy guy

I am too lazy to talk about moe.
Read [A] wikipedia article if you want to know about it
(e/n: no hyperlinks in pictures XD)

Nara is a prefecture of Japan next to Osaka. There is a park in the prefecture,
Nara Park, that is famous for the deer that live there.
